### Blended Learning

The project management bootcamp is a fusion of academic and practical delivery methods. The course begins with a kick-off session to provide course information and objectives. A competency assessment will take place following the induction and will be repeated at the end of the Bootcamp. The academic learning takes place over 5 days via virtual learning sessions, which are followed by two days in a face-to-face classroom environment. This package includes the online exam.

### Course Content

**This Skills Bootcamp follows the APM PMQ syllabus and covers the following main Learning Outcomes:**

- Understand how organisations and projects are structured
- Understand project life cycles
- Understand the situational context of projects
- Understand communication within project management
- Understand the principles of leadership and teamwork
- Understand Planning for success
- Understand project scope management
- Understand schedule and resource optimisation
- Understand project procurement
- Understand risk and issue management in the context of project management
- Understand quality in the context of a project

### Exam details

A three-hour written paper with an additional 15 minutes reading time at the start where candidates must answer ten from sixteen questions.

### Certification

At the end of the Skills Bootcamp, successful delegates will receive an official certificate for the APM Project Management Qualification (APM PMQ). A certificate will also be received on successful completion of the application workshops.
