

RISK L2

APM Project Risk Management

/ Classroom

20/20

[Book Now](#)

This fully accredited course is aligned to the Association for Project Management's (APM's) Project Risk Management Level 2. The course is designed to determine an individual's knowledge, understanding and capability in project risk management sufficient to allow an individual to undertake formal project risk management.

 APM Accreditation

 Intermediate Level Course

 Price available upon request

Overview

The Risk 2 exam syllabus is largely derived from APM's Project Risk Analysis and Management (PRAM) guide 2nd edition. It contains 8 learning outcomes and is set at an intermediate level.

Who Should Attend?

This course is designed for people already in possession of foundation level knowledge and who need to be able to apply a risk management process in a project environment. There is an assumption that candidates will already have knowledge equivalent to APM Risk Level 1. Although not a pre-requisite, level one is highly recommended prior to taking the APM Risk Level 2.

Why Learn with 20/20?

As the largest independent provider of project management training in the UK, we are here to support and guide you through professional training. 20/20 care about your development as a project professional and will help you and your team achieve new qualifications. With a 98% pass rate for your APM accredited courses, you can trust 20/20 to deliver results.
