The APM Project Risk Management Single Subject Certificate (level 1) determines the candidate's knowledge of the subject, sufficient to allow them to contribute to risk management within a project. It is designed to build on the knowledge gained in the APM Project Management Qualification or similar project management qualifications.

Overview

The Risk 1 exam syllabus is largely derived from APM's Project Risk Analysis and Management (PRAM) guide 2nd edition. It contains 8 learning outcomes and is set at a foundational level.

Why Learn with 20/20?

As the largest independent provider of project management training in the UK, we are here to support and guide you through professional training. 20/20 care about your development as a project professional and will help you and your team achieve new qualifications. With a 98% pass rate for your APM accredited courses, you can trust 20/20 to deliver results.
