### Virtual Classroom Delivery

The 3 day virtual classroom planning & scheduling practice course is a fully immersive and interactive experience. Taught by a fully qualified facilitator, it will help attendees understand the project planning & scheduling environment.

### Exam Details

Candidates complete a two part end of course assessment. This includes a multiple choice test and a practical assessment.

### Course Content

**On completion of the training, the learner will be able to:**

1. Understand the importance of planning and scheduling - describe the importance of good planning and the main terms used in planning and scheduling.
2. Understand the processes required to produce schedules.
3. Prepare schedules for the control of work scope delivery.
4. Produce planning information (including schedules) in the right format to meet stakeholder needs and to gain buy-in.
5. Understand other processes relating to scheduling.
